Extreme Testing

Extreme testing by one family in 19 countries!

In 2020 Elmar Oostveen and his family embarked on one of the most epic trips we have ever seen.
We shipped his canopy and Loadslider as well as 2 x kitchen units, fold up table and an ammo box holder to the Netherlands. In June 2020 Elmar and his family put all of our products through one of the toughest tests. 19 countries later, Elmar and his family arrived home safely, no damage or any issues with our products.
Unfortunately their Hilux broke down once, meaning our products outlasted a Toyota Hilux on this trip!

You can see this epic trip by visiting Elmar's Instagram page @oostveen_overland.

19 Countries Visited

The Netherlands	Croatia	Bulgaria	Honduras
Belgium	Bosnia and Herzegovina	Greece	Nicaragua
France	Montenegro	Mexico	Costa Rica
Monaco	Albania	Guatemala	Panama
Italy	North Macedonia	El Salvador

Canopy Features

Standard features of the GZ Aluminium Canopy:

- 3000kg static load rating officially tested and certified
- Average canopy weight for double cabs +-55kg
- Industry leading 12 year frame warranty & service plan linked to your unique serial number
- Pressure equaliser vent which neutralises the pressure in the load bin reducing dust intake
- Roof rails fitted with high tensile M8 bolts, allows you to fit tents, roof rack or load bars
- Continuous Centaflex dustproof and waterproof hinges
- Reinforced heavy duty internal slotted roof bars allows you to easily add accessories with no drilling
- Slotted base extrusion which also allows you to easily add accessories without drilling
- 2 x high quality gas struts per door mounted onto 304 stainless steel brackets for added strength
- Large pressure lever locks with Neoprene weatherproof & UV resistant seals
- Toughened SABS safety glass front and back, rear window tinted for added security
- Canopy components are easy to repair/replace if damaged
- All of our canopies are easy to fit and remove using basic hand tools
- Add accessories at any stage allowing you to build your setup over time or all at once
- Over 30 additional add on accessories that can be fitted without any drilling
- The most feature packed canopy on the market
- Easily add a roof rack or load bars, allowing you to carry cargo/tents/ladders etc
- All products and accessories are tested by ourselves and some select customers. We have one customer in Europe testing our products through over 19 countries & 3 continents with no issues
- We offer advice on canopy options and accessory choices for commercial, leisure and overlanding
- Over 10 years of product design and testing

Mid Range Canopy Additional Features:

- Frame colour choice black or white
- Doors & roof colour choice black or white

Pro Series Canopy Additional Features:

- LED brake light with wiring harness
- Internal magnetic battery operated switch light
- Rear window security barrier
- Frame colour choice black or white
- Doors & roof colour choice black or white

Close up Pictures

Below are some close up pictures of our Mid Range canopy. Pictures don't do our products justice but we have tried to show how well made our products are, with a great deal of time and attention paid to detail. Our canopies look great inside and out.

Kitchen Units

Canvas Cutlery Bag R2400 each

- High quality canvas cutlery bags
- Easy to fit and pack into our kitchen units
- Cutlery bag is removable and can be carried to cooking/eating area
- Any cutlery, crockery, cooking utensils and other kitchen related items can be packed
- No restrictions on what items can be packed
- More usable than foam inserts

Foam Inserts POA

- We outsource all of our foam insert work to HD Foam Solutions
- Foam inserts are easy to fit and glue into our kitchen units
- All foam inserts are custom made to your requirements
- Items you require need to be supplied to HD Foam Solutions so they can measure everything up and send you different layouts
- Once you decide on a layout the foam inserts will be cut out and sent either to the customer or to us to install into the kitchen unit

Vents & Insulation

All canopies come standard with a front mounted pressure vent
Our pressure vent is suitable for ordinary conditions
Pop up vents are needed for fine or excessively dusty roads
Vents should be used in conjunction with a load bin/tail gate dust seal kit
